

ecobee  
green made easy

Meet the ecobee Smart Thermostat

green made easy.

## easy >

The ecobee Smart Thermostat has simple touch screen programming and a personalized web portal that makes energy saving simple. Go to [www.ecobee.com](http://www.ecobee.com) to find out more...

## smart >

Designed in partnership with homeowners and HVAC technicians, the ecobee Smart Thermostat is built with intelligent programs to save you more energy and money.

## green >

You could have the impact of planting 70 trees every year without ever lifting a shovel. ecobee can help you significantly reduce your environmental impact.

## ecobee Company Overview

ecobee's mission is to help homeowners conserve energy, save money and reduce their environmental impact. Our green automation platform sits at the convergence of energy conservation, green technology, the networked home and consumer electronics. Our products automate energy conservation, making it easier to save on energy costs without sacrificing comfort.

We deliver intelligent conservation solutions for real people – people with children to

raise, housework to do, hectic schedules to keep and demanding careers to sustain. ecobee is part of an international ground swell empowered by the realization that we need to take action on the environment, and the time to take that action is now. Our products and services are developed with care, innovation and attention to detail. They have a real and meaningful impact on our customers and their communities.

### Weather

The weather button provides the latest forecast for the ecobee customer's specific region.

### Quick Save

Works just like a light switch. Using the Quick Save button will automatically set the ecobee Smart Thermostat into energy conservation mode.

### Details

Provides the ecobee customer access to all of their heating and cooling settings. There are easy to use lists and scroll wheels to assist in system programming.

### Program

Shows the customer their current thermostat settings. Additional Wizard and Editor functions assist in basic and more advanced programming.

### Vacation

The Vacation setting is easy to use. It allows the ecobee homeowner to create a Vacation so that they will save energy while away.
